Mr. Wells has appointed Miss Anna Rusk, of Prescott, and Mr. Goodrich, Mr. T. S. Riley, of Maricopa, as their clerks on the commission to codify the laws.

The appropriation for the Flagstaff school has been fixed by the Probate judge at \$700.40 for the current year. The funds will be used to the best advantage, especially the odd 40c.

Col. J. W. Eddy, president of the Mineral Belt railroad, yesterday received a bill of lading, showing the shipment of 19 car loads of rails for this point.

The evidence in the horse case in which J. R. Kilpatrick is defendant, has been concluded at Prescott, and Judge Porter has the decision under advisement.

The Albuquerque Democrat says: "Johnny and F. J. Hopkins have undertaken to deliver 50,000 ties to the Mineral Belt Railroad. Their teams are now on the way from Deming to Flagstaff."

The construction of the Mineral Belt railroad is progressing steadily under the most favorable circumstances. There has been no inclement weather to retard the work since the first sod was turned.

After this month it is expected that the A. & P. pay car will be discontinued and the boys' checks will be sent to the agents at the depots along the line. It cost about \$1,000 per month to run the pay car.

Dr. D. J. Brannen, while on his way yesterday to visit a patient in the country, was thrown from his horse. His arm was sprained and his shoulder painfully bruised by the fall, but his many friends will be glad to know the injuries are not serious.

Messrs. Christy & Wise, the extensive wool commission merchants of San Francisco, commence an advertisement in this issue. They already do a large business in this locality in wool, hides and pelts, and parties consigning to them will find the house reliable in all respects.

It was finally decided this morning that the junction of the Mineral Belt railroad with the A. & P. should be in front of Railroad avenue, a few yards west of the water tank. Men were immediately put to work to complete the connection. The building of the new depot will be commenced right away, near the present location.

A very pleasant social party was had last night at the school house, the proceeds of which will be applied towards the purchase of a new heating stove for the new church. After a pleasant social time, including some music, the party sat down to a box supper, an entertainment which is always provocative of fun and a good time generally. There was a large company present and the proceeds netted \$22.50, of which \$3.00 was sent through Mrs. J. W. Eddy by parties of Mill Town. The credit of getting up the entertainment is due mainly to Miss Nellie Beal, and her success as organizer of such an enjoyable social party, leads to the hope that she will make another effort of the same kind.

A large portion of the mining town of Quibota, was destroyed by fire on Jan. 20th. The principal losers are Reffer, stables; Harrington, large frame building; Glassman's brewery and fixtures; Engasser & Co., saloon. L. Smith lost wagons valued at \$1,000.

A Chance for Investors.

It has been estimated that the present mode of branding cattle in the western country damages their hides to the extent of \$12,000,000 annually, which is a tolerably large sum for the cattle raisers and the meat-consuming public to pay every year, to maintain a practice which is cruel and impro-

ident. There must, of course, be some distinguished mark placed upon range cattle, in order to know who they belong to, and it must be one which will endure weather and wear, and which cannot easily be altered or obliterated by dishonest men. But there must be a better way to accomplish this end than burning enormous brands upon the most valuable portions of the hide, and multiplying them with every change of ownership.—Hoof and Horn.

A bill for providing a levee on the west bank of the Gila river was passed.

W. H. Ashurst introduced a bill to form the new county of Pinal from the eastern part of Yavapai county.

## Guarding the Town.

The necessity for having a reliable night watchman to guard the town has been under consideration for some time and last Monday evening a meeting of citizens was called at the G. A. R. hall to take some steps to accomplish this purpose. We have had several watchmen who have depended on their own collections from property owners to pay them for their work and the amount they have been able to collect has been so uncertain that the duties have not been always attended to satisfactorily. Therefore it was deemed advisable to select a competent man and pay him fair wages for his services.

A large number of citizens were present at the meeting. D. A. Murphy was elected chairman and H. G. Temple secretary. On motion of Mr. P. P. Daggs it was decided to appoint a committee of three to be intrusted with the whole arrangements. To select a competent man and pay him a stipulated sum monthly, also to collect subscriptions for this purpose and be responsible for the good conduct of the watchman, with power to discharge him at any time and put another in his place. John W. Francis, John Sanderson and James A. Vail were elected to serve on this committee. They have since reported that a sufficient sum has been promised to pay \$50 per month and they have appointed Michael Roach to do the duty for that amount of compensation.

## Immigration Office.

SEVERAL of our exchanges throughout the Territory are loudly deprecating the rumored attempt to abolish the office of Immigration Commissioner. We should very much like to know how much that particular department has done toward bringing people to this territory; how much information concerning the resources and advantages of the country, has been sent out from that office, except such as had first been gathered up and made known through the newspapers. In our opinion the office is a sincere and could well be dispensed with. Instead thereof let the people organize local immigration societies in the various towns and settlements, which will second the efforts of the press in disseminating information for the guidance of home seekers. Let those local societies, aided by the people, make exhibits of fruits and other products at times and places that would be productive of the most good. In these ways more advancement could be made in the way of making known our many and varied resources and in promoting settlement than could or would be done through the office of Immigration Commissioner in an age.—Yuma Sentinel.

The moral and family newspaper of Northern Arizona thinks that the above article is directly to the point and heartily endorses the opinions expressed in it.

## Brace Up.

You are feeling depressed, your appetite is poor, you are bothered with Headache, you are fidgety, nervous, and generally out of sorts, and want to brace up. Brace up, but not with stimulants, spring medicines, or bitters, which have for their basis very

cheap, bad whiskey, and which stimulate you for an hour, and then leave you in worse condition than before. What you want is an alternative that will purify your blood, start healthy action of Liver and Kidneys, restore your vitality, and give renewed health and strength. Such a medicine you will find in Electric Bitters, and only 50 cents a bottle at D. J. Brannen & Co.'s Drug Store.

## Sale of Military Reservations.

The Secretary of the Interior has directed the Commissioner of the General Land office to survey and plat, preparatory to appraisal and sale, all of the lands embraced in the several abandoned military reservations which have been turned over to the custody of the Interior Department under the provisions of the act of June 5, 1884: The order directs that as each reservation is subdivided and platted, each shall be at once so reported to the department that appraisers may be appointed and the land offered for sale at as early a day as possible. It is stated that these reservations cover an area of about 700,000 acres and include some of the choicest agricultural lands in the States and Territories in which they are located. Among the list of reservations included in the Secretary's order, are Fort Whipple, Fort Verde, Camp Goodwin, Camp Crittenden and old Camp Grant Timber reservation, in this Territory.

The Only Way to Conquer Dyspepsia.

It is perfectly preposterous to introduce pepsin and other artificial solvents into the stomach, in the expectation that they will assist digestion by acting on the food itself. They will not. Nor is it possible to the overcome dyspepsia. The only way to conquer that disorder, and prevent numerous diseases and disabilities to which it assuredly provokes, is to renew the activity of gastric action by strengthening the stomach. Hostetter's Stomach Bitters eradicates the most inveterate forms of indigestion by restoring vitality to the alimentary organs, and those which are tributary to them. The liver, the bowels, the kidneys and the nerves, no less than the stomach, experience the invigorating effects of that standard tonic, which possesses alternative properties that greatly enhance its beneficial influence, and give effectiveness to its effects which they would not otherwise possess.

About Brandt's Unknown Friend's Luck.

The story as told by Brandt, a foreman in Mr. Wm. Lewis' cigar factory in San Francisco, Cal., is, that his diffident friend asked him to act as his agent, being intimate, and he naturally accepted the position, with the result of winning Third Capital Prize in the November Drawing of the Louisiana State Lottery, for \$1 sent to M. A. Dauphin, New Orleans, La.

The number held by the young clerk was 67,853, the whole ticket drawing the sum of \$10,000.—San Francisco (Cal.) Chronicle, Dec. 8.

Captain Mitchell, of the bark Antonio Sala, New York and Havana trade, came home in May, entirely helpless with rheumatism. He went to the mountains, but receiving no benefit, at his wife's request began to take Hood's Sarsaparilla. He immediately began to improve; in two months his rheumatism was all gone, and he sailed in command of his vessel a well man. Hood's Sarsaparilla will help you. Sold by druggists.

THE inter-state railroad bill which has now passed both houses of congress will be of great benefit to our stock growers.

## The Oft Told Story

Of the peculiar medicinal merits of Hood's Sarsaparilla is fully confirmed by the voluntary testimony of thousands who have tried it. Familiar in the combination, proportion, and preparation of its ingredients, peculiar in the extreme ease with which it is put up, Hood's Sarsaparilla accomplishes cures where other preparations entirely fail. Peculiar in the use of the good time it has made at home, which is a "tower of strength abroad," peculiar in the phenomenal sales it has attained.

Hood's Sarsaparilla

is the most popular and successful medicine before the public today for purifying the blood, giving strength, creating an appetite, and suffering from weakness and low spirits, and also had eczema on the back of my head and neck, which was very annoying. I took one bottle of Hood's Sarsaparilla, and I have received so much benefit that I am very grateful, and I am always glad to speak a good word for this medicine."—Miss J. B. SEXTON, Fortville, Penn.

Purifies the Blood

Henry Higgs, Campbell Street, Kansas City, had serious sores all over his body for fifteen years. Hood's Sarsaparilla completely cured him.

Wallace Smith, of North Woodbury, N. Y., suffered eleven years with a terrible skin disease on his leg, so bad that he had to give up business. He was cured of the skin, and also of eczema, by Hood's Sarsaparilla.

## Their Business Booming.

Probably no one thing has caused such a general revival of trade at D. J. Brannen & Co.'s Drug Store as their giving away to their customers of so many free trial bottles of Dr. King's New Discovery for Consumption. Their trade is simply enormous in this very valuable article from the fact that it always cures and never disappoints. Coughs, Colds, Asthma, Bronchitis, Croup, and all throat and lung diseases quickly cured. You can test it before buying by getting a trial bottle free, large size \$1. Every bottle warranted.
